

Light does it all. It provides nourishment, regulates our sleep, and enables productivity. Even as the world has modernized, our fundamental need for light has remained the same.

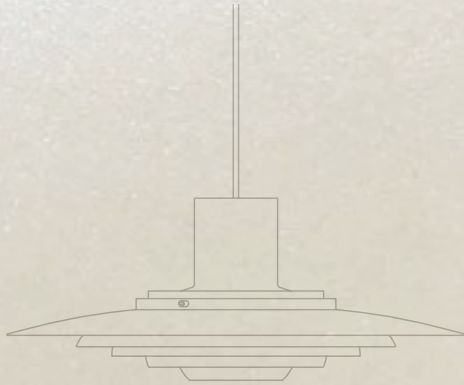

In our homes, the right lighting has the power to transform a space. It is capable of distorting the perception of space and dramatizing the shapes and textures of materials. More importantly, light creates a welcoming atmosphere that lifts our spirits.

&Tradition understands the essential role that light plays in our daily lives. Our light collection of timeless pieces brighten any space, from sculptural floor lamps to more discreet table and spot lighting. Many feature the latest technology, from dimmer switches to LED technology that transmits a high-quality diffused glow. Whatever the occasion, the right lighting will enhance it.
